1.0 Introduction – 2020 Highlights

Every year, the health, safety, and wellbeing of the people who support Husky's operations is our top priority. In 2020, Husky completed its 15th full year of operations at the White Rose field, safely. The *SeaRose* FPSO remained in operation, with enhanced COVID-19 screening provisions and physical distancing measures for workers, and produced approximately 9.1 million barrels of oil. To the end of 2020, the White Rose field and satellites have produced over 309 million barrels of oil.

In September, Husky announced a review of the West White Rose Project (WWRP). Major construction was suspended in March due to impacts related to the COVID-19 pandemic. In October, the company announced the continued suspension of construction on the concrete gravity structure in Argentia, NL through 2021. In December, the Government of Newfoundland and Labrador announced \$41.5 million in funding to help maintain jobs in the near-term and protect the option of re-starting the project in 2022, if conditions permit. With this support, work on the living quarters and topsides appurtenances continued in Marystown, NL. At the end of 2020, the project was approximately 60% complete and the joint venture continues to evaluate its options beyond 2021.

Also in Fall 2020, Husky announced a merger with Cenovus. As of January 2021, Husky is a wholly-owned subsidiary of Cenovus; its regulatory requirements and benefits commitments are unchanged.

Other 2020 Atlantic Region Highlights:

- The total number employed on White Rose Operations was 604; 91% of those were residents of Newfoundland and Labrador and another 6.7% were residents of other regions in Canada.
- Total Newfoundland and Canadian content for expenditures on the White Rose project for the period January 1 to December 31, 2020 was 74% (53% NL; 21% Other Canadian).
- From January to February 2020, Husky safely completed the reservoir abandonment of White Rose B-07 1 and demobilized the *Henry Goodrich* drilling rig. Following rig demobilization, resources were refocused to support the WWRP development.
- Husky invested over \$15.6 million in research and development and education and training and hired 55 co-op students (30 males and 25 females).
- A total of 14 White Rose crude cargoes were completed in 2020. All cargoes were delivered to the NTL terminal at Come by Chance, Placentia Bay, NL by the *Beothuk Spirit*, *Norse Spirit*, *Dorset Spirit* and *Navion Anglia*.
- The North Amethyst field completed its 11th year of production and produced approximately 2.3 million barrels of oil.
- The South White Rose Extension (SWRX) completed its fifth year of oil production, and produced approximately 2.5 million barrels of oil.

2.0 Employment Summary

Husky works proactively to ensure that Newfoundland and Labrador residents and members of the local supply community are full participants in the White Rose and satellite projects.

2.1 White Rose Project

As of Q4 2020, a total of 604 people were employed on Husky's White Rose operations, of which 215 were located offshore. The total employment number includes people employed with Husky and its contractors and includes North Amethyst and SWRX. The offshore number for this reporting period includes personnel from *SeaRose* FPSO, support vessels, helicopters and tankers.

Of the total personnel, 551, or 91%, were residents of Newfoundland and Labrador when hired, while another 40, or 6.7%, were residents of other regions of Canada at the time of hire. The number of females employed on White Rose operations was 136, or approximately 22.5%, of the total workforce (Table 2.1).

Employment for the WWRP is reported separately in Section 2.2.

3.0 Canadian-NL Content Estimates

3.1 Atlantic Region Expenditures Summary

The total expenditure to date for all Husky's Atlantic Region activities is approximately \$14.8 billion (Table 3.1). Of this amount, 72% is Canadian content: 52.2% NL content and 20.9% Other Canadian.

Notes:

(1) Please note the following with respect to the expenditure totals being reported:

(a) These amounts include payments made to vendors.

(b) These amounts include payments made to Husky direct employees (payroll).

(c) These amounts do not include/reflect journal entries or system-generated accounting entries.

(d) This report summarizes the data contained in the individual reports for the following work scopes

- White Rose Project

- North Amethyst Project - Exploration

- West White Rose (pilot)

- White Rose Extension Project (SWRX)

- West White Rose Project

(2) Please note the following with respect to the content information being reported: (a) A vendor content table has been created in our financial management system (SAP).

(b) This table has been populated with NL, Other CDN, and FOR content percentages for vendors based on rules of thumb, historical content data obtained to date, and updates supplied by vendors.

(c) An SAP report has been developed that assigns the content percentages from the table to all payment amounts made to specific vendors

(d) This report can then be summarized to obtain the total content percentages/dollar values for the reporting period.

(e) Payroll costs for East Coast Husky direct employees are determined via detailed cost reports and recorded as 100% Newfoundland and Labrador content.

For the period January 1 to December 31, 2020, approximately \$240 million was spent on White Rose Operations (Table 3.2). Of this amount, 74% is Canadian content: 53% NL and 21% Other Canadian. This includes costs related to production operations, drilling and other White Rose activities; however, there were no exploration expenses incurred in 2020.

Notes

(1) Please note the following with respect to the expenditure totals being reported:

- (a) These amounts include payments made to vendors.
- (b) These amounts include payments made to Husky direct employees (payroll).
- (c) These amounts do not include/reflect journal entries or system-generated accounting entries.
- (d) 2003 2004 expenditure breakdown for Well F-04/F-04Z as per SAP CJ74 Detailed Cost Report; multiplied by content noted in 2(f) below.
- (d) White Rose CAPEX I totals to March 31, 2006 as per CAPEX I Reconciliation file/notes submitted in Q1 2006. All subsequent CAPEX I costs analyzed in accordance with the guidelines listed on this report. (e) The White Rose Project Report includes the following work scopes/costs:
 - White Rose CAPEX I
 - White Rose CAPEX I
 - White Rose CAPEX II Long Lead Items
 - White Rose OPEX
 - White Rose Area Development and Research/Development
 - White Rose Satellite TieBacks
 - Some costs which partially relate to the North Amethyst Project but cannot easily be segregated (for this report) due to a complex general ledger structure
 - Some costs which partially relate to Exploration but cannot easily be segregated (for this report) due to a complex general ledger structure

(2) Please note the following with respect to the content information being reported:

(a) A vendor content table has been created in our financial management system (SAP).

- (b) This table has been populated with NL, Other CDN, and FOR content percentages for vendors based on rules of thumb, historical content data obtained to date, and updates supplied by vendors.
- (c) An SAP report has been developed that assigns the content percentages from the table to all payment amounts made to specific vendors.
- (d) This report can then be summarized to obtain the total content percentages/dollar values for the reporting period.
- (e) Payroll costs for East Coast Husky direct employees are determined via detailed cost reports and recorded as 100% Newfoundland and Labrador content.

(f) 2003 - 2004 vendor content for Well F-04/F-04Z was manually entered based on information available at that time; multiplied by expenditures noted in 1(d) above.

4.0 Procurement

Husky ensures procurement and business opportunities are shared broadly to provide local companies full and fair opportunity to participate in the supply of goods and services. Opportunities are posted on the Husky and WWRP websites where Husky procurement opportunities are identified and links to contractor procurement websites are available. Husky also regularly posts procurement opportunities with NOIA.

During 2020, a total of 24 new contracts and 22 contract extensions, that were each valued at more than \$250,000, were awarded. Tables 4.1 and 4.2 provide a summary of these contracts.

5.0 Research and Development & Technology Transfer

Developing the technologies to support improvements in safety, performance, and productivity for the harsh offshore environment is key to supporting future activity in the region. In 2020, Husky invested more than \$14.9 million in research that was executed in Newfoundland and Labrador with a range of local companies and academic institutions.

5.1 Ongoing R&D Projects

A number of Husky directed, or sponsored R&D initiatives already in flight continued into 2020, including those with:

Memorial University

- Husky is supporting two key activities associated with the Faculty of Engineering and Applied Science by providing funding for:
 - The NSERC/Husky Chair for Safety at Sea which aims to promote the development of simulation technologies to improve operational safety leading to a more robust, inherent safe design, of offshore facilities; and
 - The Harsh Environment Research Facility which, when built, will be a world-class development and testing facility that will enhance Newfoundland and Labrador's position as a global leader in operating in harsh environments.
- In the Department of Earth Sciences, Husky has supported the Geomechanics Project, led by Dr. Michael Slawinksi to advance understanding of seismology.

Petroleum Research (PRNL)

- Environment
 - Bioindicators Diagnostic Tools for Effects Assessment
 - o X-Band Radar Oil Spill Detection
 - Advanced Satellite Observations for Oil Spill Response
- Health & Safety
 - o Unmanned Aerial Iceberg Tracking Project
 - Performance of Personal Locator Beacons (PLBs)
- Integrated Operations / Digitalization
 - An Integrated Approach to Digital Oilfield Education
 - Digitizing Extractive Industries
 - Digital Innovation Strategy
- Enabling Marginal Fields
 - Enabling Marginal Field Development
 - AFT Program Flowline Protection for Extended Tiebacks
 - o AWL Evaluation of use of Weaklinks for Iceberg Mitigation
 - Technology Advancement for Subsea Excavations (Scanmudring)

• Other

- Ocean Supercluster
 - OceanVision Phase 0 Kraken Seavision

C-CORE

- Water Cannon Target Tracking for Ice Management
- Water Cannon Phase 2
- Evaluation and Optimization of an Iceberg Drift Forecast Model for the Smart Iceberg Management System (SIMS)
- Ice Loads on Floating Structures Joint Industry Project (JIP)

Innovation and Business Development Fund

• Administered by the Government of Newfoundland and Labrador, and supported by funding from Husky, this fund invests in projects that help strengthen the province's position as a preferred location for oil and gas development globally.

Other

- Hatch—WWRP Weak Link Load Assessment Validation Study
- Marine Institute and Notus—Developing an ice net for use in high sea states

5.2 New R&D Projects

Notable new projects initiated in 2020 include:

Petroleum Research (PRNL)

- Health & Safety
 - Shuttle Tanker Operations Competency Assurance Program
- Environment
 - Advancing Environmental Genomics in the Marine Environment
- Other
 - o Ocean Supercluster
 - Digital Offshore Canada Phase 0

C-Core

• WWRP Evaluation and Downtime Due to Ice

Other

- Rutter Internet of Things (IoT) Project Ocean Supercluster Project
- Environmental Effects Monitoring with Stantec/DOF

6.0 Education and Training

Investing in education and training remains a key priority for Husky for the benefits it brings to its workforce and operations, and the contribution it makes to developing the local offshore industry.

In 2020, Husky invested more than \$1.4 million in education and training; below is a description of the major initiatives undertaken in relation to the White Rose project. Section 6.3 lists highlights from Husky's contractors.

6.1 Husky Co-operative Education

Husky continued its strong commitment to co-operative education programs in 2020. While the number of positions decreased due to COVID-19, Husky hired 55 students (30 males and 25 females) in 2020. Students were hired from a variety of disciplines from Memorial University and College of the North Atlantic. Total expenditure on co-operative education for 2020 by Husky was over \$1,000,000.

6.2 Husky Personnel Training

In 2020, there was a decrease from previous levels in discretionary employee training due to interruptions caused by the pandemic. However, as online options increased and restrictions relaxed, activity rebounded in the second half of the year.

6.3 Contractor Training Initiatives

Despite a challenging year, Husky's contractors continued to support education and training for students and employees. For example,

- Aker spent over \$120,000 on work term students and leadership training for women.
- Atlantic Towing spent over \$200,000 on work term students from the Marine Institute and College of the North Atlantic.
- TechnipFMC spent over \$66,000 on work term students from Memorial University and the College of the North Atlantic and tuition support for employees.

6.4 Community-Based Education and Training

In 2020, Husky continued its commitment to increasing access to education and training opportunities for vulnerable groups in our community.

Early in 2020, we committed \$100,000 to Stella's Circle to support participants in their Horticultural Therapy social enterprise program. Combining wellness and education, this program helps participants, who face a variety of employment barriers, build skills and gain experience that will help them enter or return to the workforce.

We further supported education with two new investments in 2020:

• \$12,500 to Thrive for the delivery of their GED programming; and

• \$2,500 to the Learning Disabilities Association of NL for their assistive technology program.

The COVID-19 pandemic and its associated economic challenges impacted Husky's community investment throughout the year. In the Atlantic Region, Husky focused its efforts on preserving relationships with key community partners and many of our contributions were payments under existing agreements that were previously announced including:

- \$120,000 to support the Husky Centre of Excellence in Sales and Supply Chain Management at Memorial University's Faculty of Business Administration;
- \$30,000 to support the delivery of the CNIB's Eye Safety Program;
- \$25,000 to support WRDC launch their virtual STEM for Girls programming;
- \$20,000 to support the Nature Conservancy of Canada's Conservation Internship program in NL; and
- \$15,000 to support the Eastern Region Science and Technology Fair.

6.5 Other Community Support

In addition to the education-focused investments noted above, Husky also supported other local organizations* including:

- \$15,000 to the Jimmy Pratt Memorial Outreach Centre to support their breakfast program;
- \$10,000 to the Canadian Cancer Society's Daffodil Place to support patients and their families;
- \$10,000 to Artistic Fraud Theatre Company to support new writers and diverse stories; and
- \$7500 to five local organizations to assist them with their COVID-19 protocols.

The pandemic highlighted the needs of organizations in our community that serve vulnerable populations. Husky contributed \$50,000 to the United Way's Atlantic Compassion Fund to support frontline community organizations in Newfoundland and Labrador. Following the company's lead, Husky employees stepped up to support organizations that were meaningful to them.

In total, Atlantic Region employees used the Husky Gives platform to contribute to 84 local causes. Employees contributed \$24,383 and Husky matched that with \$40,055 for a total contribution of \$64,437. In addition, Husky employees were eligible to receive grants in recognition of their volunteer service. Through this channel, employees contributed a further \$11,980. In 2020, Husky employees used the internal Husky Gives platform to contribute more than \$76,000 to local organizations.

*The amounts noted in Section 6.5 are not included in E&T spend.

7.0 Diversity

In 2020, Husky continued to progress against its diversity commitments and a report on Husky's White Rose Diversity Plan will be submitted under separate cover.

8.0 Photographs

The photos below highlight some of the ways Husky supported the community and demonstrated its commitment to inclusion and diversity in 2020 (Note: Photos were taken throughout the year and reflect public health guidelines at the time).

Husky employees volunteered to deliver the Junior Achievement Economics of Staying in School program at St. Kevin's High - January 2020

Husky employees recognized Pink Shirt Day and took a stand against bullying- February 2020.

Canada-Newfoundland and Labrador Benefits 2020 Annual Report

Husky recognized Environment Week with a focus on plastic pollution and a clean-up in the downtown area—June 2020.

Husky supported the Nature Conservancy of Canada's internship program in NL. Here, Intern Jennifer Sullivan is identifying wetland plant species within the Grand Codroy Estuary Nature Reserve.

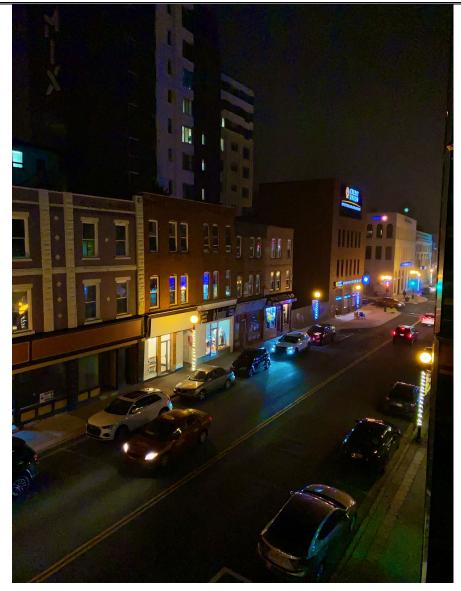

Following physical distancing guidelines, Husky participated in Pride Week in St. John's, NL - July 2020.

Canada-Newfoundland and Labrador Benefits 2020 Annual Report

Husky contributed \$10,000 to the Canadian Cancer Society NL Division to support Daffodil Place.

In October, Husky supported *The Other Side of This*, a drive-in series of radio plays created by Artistic Fraud of Newfoundland. The project, which employed more than 25 local artists, allowed audience members to safely enjoy original pieces of performance art presenting culturally important and diverse works.

Husky employees volunteered to support the Salvation Army Kettle Campaign – December 2020.

Through the Husky Gives platform, employees contributed more than \$76,000 to local organizations– December 2020.
